

100W LIGHT FOR CONCRETE AND LINER POOLS

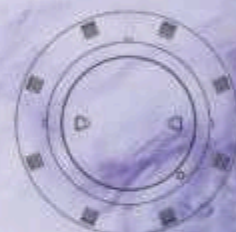

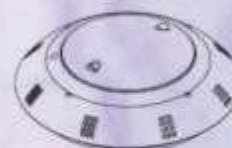

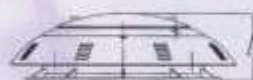

Flat type 100W, 12V Halogen underwater light. Body and Rim made of white ABS. The light is mounted like a picture frame by way of a bracket fixing plugs. Supplied with 3.4m, 2×1.5mm² cable and with red, yellow, blue and green lenses. The light fixture is designed with additional cooling vents. The unique design of this fixture permits it to be used for concrete as well as liner pools.

Also available, on request, option of stainless steel face rim.
